

**“It [ExPrep] was  
exactly what I needed;  
it really fit a need I  
had already”**

Sarah Bailey

- Teach Principles of Managerial Accounting, Cost Accounting and Advanced Income Tax
- Using ExPrep since Spring 2019
- Redesign course to integrate the Excel skills they would need for the job. Felt responsible to prep students before interviews/jobs
- Ability to give students independence when practicing since students coming in with all different skill levels. ExPrep allows walk through step by step and give students ability hands-on practice for many individual modules. Also, learning shortcut keys through ExPrep creating more efficiency

## Problem

Using a big Publisher. Seeking to bring in Excel as much as possible. Publisher textbook assignments, but also assigning Excel problems. Doing all the grading manually and not good feedback.

## Solution

Initial thought to wait until next fall but ExPrep assured that we'd be able to get everything setup and onboarded. Our assurance to expeditiously implement ExPrep helped Sarah to take that step for Spring 2019.

## Result

ExPrep took care of everything. Sent the Excel content and made the execution process fluid and easy.
